Instructions For Schedule SF

General Information

Schedule SF is to be used **only** by married persons who filed a joint Federal individual income tax return but may not file a joint North Dakota individual income tax return because one spouse is a resident of North Dakota and the other spouse is a nonresident of North Dakota.

Schedule SF is used to report each spouse's share of the joint Federal adjusted gross income. The separate information is then used by each spouse to complete his or her own separate North Dakota return. To determine whether or not the nonresident spouse is required to file a North Dakota return, see **Who Must File A Return** on page 2 of the instructions to the North Dakota individual income tax return. Each spouse required to file a North Dakota return may choose to use either Form 37-S (Short Form) or Form 37 (Long Form).

Important: Because each spouse will use his or her own information from Schedule SF to complete his or her separate North Dakota return, the Federal return line references in the instructions to the North Dakota return (and on the return) must be disregarded. See **Instructions for Transferring Information from Schedule SF to Either Form 37-S or Form 37** on the right hand side of this page.

Instructions for Completing Schedule SF

Lines 1 through 26. Except for lines 7 and 14, enter the income, gains, losses, and adjustments to income from the joint Federal return on the appropriate line in the **Total** column. Enter the amount belonging to each spouse in the **Resident** and **Nonresident** columns. Income, gains, and losses from jointly owned property must be divided equally between the spouses.

For lines 7 and 14, the amounts for capital gain or loss and social security benefits reported on the joint Federal return must be recomputed using the rules that would apply if separate Federal returns had been filed. Enter the recomputed amount for each spouse in the **Resident** and **Nonresident** columns first, and then enter the sum of the recomputed amounts in the **Total** column. These recomputations will cause the adjusted gross income and taxable income amounts for North Dakota purposes to differ from the amounts on your Federal return.

Line 27. Divide each spouse's separate adjusted gross income for North Dakota income tax purposes in the **Resident** and **Nonresident** columns on line 26 by the amount in the **Total** column on line 26. Round the result to the nearest whole percentage and enter the result in the appropriate column.

Line 28. If deductions were itemized for Federal purposes, enter the amount from Schedule A (Federal Form 1040), line 28 in the **Total** column. Multiply this amount by each spouse's percentage on line 27 and enter the result in the appropriate column.

Line 29. If the standard deduction was used for Federal purposes, enter the amount from Federal Form 1040, line 34 or Federal Form 1040A, line 19 in the **Total** column. Enter in the **Resident** and **Nonresident** columns the part of the total amount belonging to each spouse, as shown below:

- | | | |
|----|--|---------------------|
| 1. | If both spouses are under 65 years of age | \$3,350 each |
| 2. | If one spouse is 65 or over and the other spouse is under 65 - Spouse 65 or over | \$4,150 |
| | Spouse under 65 | \$3,350 |
| 3. | If both spouses are 65 or over | \$4,150 each |
| | (Note: If blind, add \$800 to the amount shown for the spouse.) | |

If you used Federal Form 1040EZ and checked "**No**" on line 5 of that form, enter \$6,700 in the **Total** column and \$3,350 in the **Resident** and **Nonresident** columns. However, if you checked "**Yes**" on line 5 of Federal Form 1040EZ, enter the amount from line E of the **Worksheet For Dependents** (on the back of Federal Form 1040EZ) in the **Total** column, and then enter in the **Resident** and **Nonresident** columns the part of the total amount that each respective spouse would be allowed had separate Federal returns been filed.

Line 31. Enter the amount from Federal Form 1040, line 36 or Federal Form 1040A, line 21 in the **Total** column. Each spouse must claim his or her own personal exemption. Multiply the exemption amount for dependents, if any, by each spouse's percentage on line 27, then round to the nearest whole exemption amount (\$2,550) and enter the result in the appropriate column.

If you used Federal Form 1040EZ and checked "**No**" on line 5 of that form, enter \$5,100 in the **Total** column and \$2,550 in the **Resident** and **Nonresident** columns. However, if you checked "**Yes**" on line 5 of Federal Form 1040EZ, enter the amount from line F of the **Worksheet For Dependents** (on the back of Federal Form 1040EZ) in the **Total** column, and then enter in the **Resident** and **Nonresident** columns the part of the total amount (if any) that each respective spouse would be allowed had separate Federal returns been filed.

Line 33. Form 37-S Filers Only - Enter in the **Total** column the amount from Federal Form 1040EZ, line 10, or from Federal Form 1040A, line 23 or from Federal Form 1040, line 38 **less** any credit for prior year minimum tax included on line 42 **plus** line 46 and line 48 **plus** any Section 72(m)(5) excess benefits tax included on line 51. [Note: If there is an amount on Federal Form 1040, line 46 (alternative minimum tax), you are allowed to reduce it by any investment credit included on Federal Form 1040, line 42; however, line 46 may not be reduced below zero]. Multiply this amount by each spouse's percentage on line 27 and enter the result in the appropriate column.

Line 34. Form 37 Resident Filers Only - The resident spouse enters in the **Total** column the amount from Federal Form 1040EZ, line 10 **less** line 8, the amount from Federal Form 1040A, line 25 **less** line 29c or the amount from Federal Form 1040, line 44 **plus** line 41 and line 48 **plus** any Section 72(m)(5) excess benefits tax and recapture taxes included on line 51 **less** line 54. Multiply this amount by the resident's percentage on line 27 and enter the result in the **Resident** column.

Line 35. Form 37 Nonresident Filers Only - The nonresident spouse enters in the **Total** column the amount from Federal Form 1040EZ, line 10 **less** line 8, the amount from Federal Form 1040A, line 25 **less** line 29c or the amount from Federal Form 1040, line 44 **plus** line 48 **plus** any Section 72(m)(5) excess benefits tax and recapture taxes included on line 51 **less** line 54. Multiply this amount by the nonresident's percentage on line 27 and enter the result in the **Nonresident** column.
